Road Sheets ..... 81.25  
Road Sheets ..... 82.57  
Carried.  
Coun. Albrecht that meeting adjourn till 1.30 p.m. on Monday, Nov. 24th at Kinsella.  
B. H. GREEN, Sec.-Treas.  
M. D. of Kinsella No. 424.

## CHURCH NOTICES AND ACTIVITIES

Sabbath Day Finds the Community  
Joining in Observance, Prayer,  
and Church Attendance.

UNITED CHURCH NOTES  
The services next Sunday will be at Albert, Alma Mater and Town at the usual hours. The topic will be "For God's Sake."

We again wish to remind all our friends that the Anniversary will be held on Sunday, November 23rd and Monday, Nov. 24th. The Rev. W. J. Huston, B. A., of Wainwright will be the special preacher. It is twenty-three years since our work began in this territory with services held in the homes of the pioneer settlers. We wish to commemorate these days. We would like to see these pioneers of early days and their relatives make a special effort to take part in these services.

The W. M. S. will meet at the home of Mrs. Elford on Thursday afternoon Nov. 20th. All ladies are cordially invited to attend.

The following interesting information has come to my hand which I wish to share with the readers of this column.

"There are more convictions for bootlegging in Alberta today than ever in the past. For the year ending March 31, 1929, there were 941 convictions. The abolition of the beer parlors will not bring back the bootleggers. This strange freak of humanity is operating today in a greater degree than ever because of the appetite formed by the legal sale of beer."

Note also the following:  
1111 citizens served time in Alberta Jails in 1923.

2551 served similar sentences in 1929—four out of every thousand in Jail in 1929.

84 citizens were interdicted in 1924. 1585 interdicts were on the list on Oct. 15th, 1929.

2,243,756 gallons of beer manufactured in 1924.

5,194,837 gallons of beer manufactured in 1930.

3,446 beer only permits issued in 1924.

2,659 beer only permits issued in 1928.

In 1929 the Liquor Board has decided to do away with the Beer Only Permit because of the decreasing demand.

The last item gives us food for thought. Does it suggest that many are not satisfied with the Beer Only Permit because of an increasing liking for spirituous liquors?

ANGELIC CHURCH SERVICE  
Service will be held on Sunday next November 16th in Irma United Church at 3 p.m.

Nov. 14, A. meeting will be held on Tuesday, November 25th at the home of Mrs. F. Thurston at 2.30 p.m. Everybody welcome.

ST. THERESA CATHOLIC CHURCH  
IRMA, ALBERTA

Service on the first Sunday of each month at 11 a.m.

ATTRACTION WAY OF  
USING APPLES

At this time of the year when apples are so plentiful housekeepers should utilize them as much as possible. There are so many ways of cooking apples that the cook should not get in the prescribed habit of apple sauce, apple pie and baked apples.

A jellied apple sauce is a delightful dish and the recipe appears below:

1 tbsn of gelatine, 1-2 cup of cold water, 1 cupful of sugar, 1 cupful of water, 1 tbsn lemon juice, 1 cupful of strained apple sauce; 10 to 12 marshmallows.

Soak the gelatine in cold water. Make a syrup by boiling for ten minutes the sugar and water. Pour the boiling syrup over the soaked gelatine and mix well. To this mixture add the strained apple sauce, the lemon juice and the cherries cut in small pieces. Pour into individual wet molds and allow to stew. Serve garnished with whipped cream and red and green cherries.

Heard at the ladies social: "They are putting on a lot of style." "Yes, and putting off a lot of creditors."

## WEEKLY REVIEW PROV. MARKETS

Markets as Revised by the Market  
Examiner, of Calgary,  
For This Paper.

BEEF—Edmonton reports trading quieter. Choice heavy steers sold around \$4.75@5; choice light \$5@5.25; good kinds \$4.50@5; medium \$4@4.25; common kinds at \$3.50@4.

FEEDERS, STOCKERS—Trading in this division has been fairly active. Feeder sters making from \$4@5; stock steers \$3.50@4.75; stock heifers from \$3.50@4.75 and stock cows \$3@3.75.

HOGS—Edmonton bacon hogs brought \$9.50 this week; selects \$10, and butchers \$9.15, fed and watered basis.

SHEEP—Edmonton reports trading during the past week has been more active. Prices steady, with yearlings bringing \$4.50@5; ewes \$3@4.50; lambs \$6@8.

MARKET—Storage stocks moving out. Market underlines is unsettled owing to continued good weather. Demand fair, but no large orders being placed. Extras quoted at 30@35c; first, 23@23c; seconds, 20@21c and checks, 14@17c.

HAY—No improvement noticed in demand during past week. Miners are only buyers and their orders are light. Quality of offerings very good. Light quoted at \$11@12 and timothy at \$16 per ton, at country points.

OATS—Demand inclined to be on the slow order. Receipts continue light. A quotation of 25c per bushel prevails.

GREENFEED—Moderately active demand for small lots; no carload lot movement at present. Quotation of \$10@11 per ton prevailing. Quality good.

HIDES—No improvement recorded in this market for the past week. Country hides are in fair shape, but hard to turn over. Tanners only making small purchases, these being mostly packer hides. Prices remain steady.

WOOL—Conditions are unchanged. Quoting 6@7c per lb.

WAINWRIGHT OIL  
YIELDS BIG SHARE  
OF FINE GASOLINE

Cracking Process Gives Large Portion of Commercial Product

Important test of Wainwright crude oil which show it to yield a large percentage of commercial oils and gasoline under a cracking process have just been completed. The reports are being checked by Dr. J. A. Kelso, provincial analyst.

Tests of the oil were made at Wainwright recently by W. H. Stillson, who an experienced refinery man from Texas, and J. B. Anderson of Santa Monica. They built a demonstration plant at Wainwright and have been on the ground there for the last two weeks, arriving in the city on Wednesday with the results of their experiments.

The tests showed that over 92 per cent. of the crude oil could be recovered in gasoline of a high gravity, distillate, kerosene, and lubricants, leaving a coke residue of something over six per cent.

Oil for the tests was obtained from B.P. No. 3B well, which has an inferior product, running some 14.6 Baume gravity. The results are therefore all the more encouraging in view of such satisfactory showings from an inferior grade of oil.

Having the tests completed, Mr. Stillson and Mr. Anderson see possibilities of a refinery at Wainwright and further developments in that regard are expected.—Journal.

"THE ARRIVAL OF KITTY"  
Do not forget to attend the Play being put on in Kiefer's Hall on Friday, November 21st. "The Arrival of Kitty" which will sure drive the blues away from the most blue. Also Amos will be there by himself as Andy is needed on the radio. Many other artists doing their snappy parts will help to make the evening very entertaining and amusing. Admission Adults 50c and Children 25c. Under the auspices of the Ladies Aid.

R. D. Smallwood left for Winnipeg to attend the Grain Growers Convention on Monday.

## Irma Talkies

The picture, an all-dialogue Paramount release, is "Street of Chance," an original story by Oliver H. P. Garrett, former star reporter of the New York World.

It is a picture in which "big time" professional gambling is held up to the mirror of reality. Powell is the central character, "Natural" Davis lord of all the gamblers, who nightly gather in green-shaded hotel rooms to stake their fortunes and sometimes their lives on the deal of a poker hand.

At Kiefer's Theatre, Irma, on Wednesday, November 19th at 8.30 p.m. Adults 45c. All talking. This Add. and 25c will admit one adult.

WANT ADS

## THE ARRIVAL OF KITTY

"The Arrival of Kitty" is to be presented by local talent in Kiefer's Theatre on Friday, November 21st at 8.30 p.m., promises to be a real treat. Guaranteed to make the most serious-minded person laugh away an evening. Don't miss it.

Cast is as follows:  
William Winkler—W. A. Gamble.  
Aunt Jane, his sister—Miss B. Blade.  
Jane, his niece—Mrs. S. Johnson.  
Robbie Baxter—S. Johnson.  
Benjamin More—L. S. Reeds.

Ting, a bell boy—F. Maguire.  
Sam, colored porter—P. J. Hardy.  
Kitty, an actress—Mrs. P. J. Hardy.  
Susette, Aunt Jane's maid—Miss B. Wilson.

Don't forget the date — November 21st at 8.30.

WEED POLICY NEEDED

A new menace is looming up on the agricultural horizon in Alberta. It is weeds.

Weeds have been the cause of considerable annoyance to Alberta farmers for years. Now they constitute a serious menace to the agricultural industry.

How serious the situation is right now may be realized in a report from Lethbridge that seventy-five per cent of the cultivated land there must be summer-fallowed next year because it is so infested with weeds it will be impossible to grow a crop on it next year.

In Manitoba weeds have caused a tremendous reduction in the yield and quality of wheat, and in some areas many farms have been abandoned because of the weed bogey.

Every year the weed problem of Alberta is becoming greater, and more difficult to cope with. There is weed legislation on the statutes of Alberta, and the provincial Department of Agriculture maintains a staff of weed inspectors to see that the weed laws are enforced and noxious weeds destroyed.

But the weed act enforcement staff is inadequate and their powers insufficient, for every year the weed problem assumes greater proportions. The provincial Dept. of Agriculture must adopt more effective measures if Alberta farmers are to be saved from the weed menace.—Ex.

## Judicial Sale of Farm Property

There will be offered for sale by Public Auction by J. W. Stuart, Auctioneer, at the Post Office at Irma, Alberta, on Saturday, the 13th day of December, A.D. 1930, at 3:00 o'clock in the afternoon.

The South-West Quarter of Section Six (6), Township Forty-Six (46), Range Eight (8), West of the Fourth Meridian, containing by admeasurement One Hundred and Sixty (160) acres more or less, according to Dominion Government Survey, excepting thereout all mines and minerals.

The property will be offered for sale at an Upset Price of \$2750.00. The above property is situated 3-2 miles from Irma where there is a Railway Station, Elevator and Post Office.

The Vendor is informed: The soil is a chocolate loam with clay subsoil. Sixty acres are cultivated and one hundred acres more could be cultivated, all fenced, two wires. There is a Shack 12 ft. by 12 ft. on the land.

Terms: 10 per cent cash at the time of the sale and the balance to be paid into Court within sixty days without interest, or in the alternative 10 per cent, as aforesaid, and the execution of a mortgage by the Purchaser for the sum of \$1000.00, which shall be a first charge on the lands, payable in five equal annual instalments of \$200.00 each with interest at 5 per cent, payable annually, and the remainder to be paid into Court within 60 days from the date of sale without interest. In all other respects the terms and conditions of sale will be the standing conditions of the Supreme Court of Alberta.

For further particulars apply to Messrs. Tighe & Kerr, Barristers, Solicitors, 5 - 9 Imperial Bank Chambers, Edmonton, Alberta, Solicitors for the Vendor herein.

DATED at Edmonton, Alberta, this 7th day of November, A.D. 1930.  
R. P. WALLACE, C.S.C.  
Approved: "A.Y.B." M.C. 1-3c

IRMA C. G. I. T. REPORT

The C. G. I. T. has been organized again. The following are the officers that were appointed the first meeting, on November 4th, under the leadership of Mrs. Locke.

President—Elizabeth Higginson.  
Vice-President—Alma Lovig.  
Secretary—Aletha Knudson.  
Treasurer—Mary Jones.  
Pianist—Helen Knudson.  
Song Leader—Alma Peterson.  
Social Convenor—Alice Jones.  
Time Keeper—Vera Herbert.  
Reporter—Clara Miles.

The second meeting was held at the United Church on November 11th. The two chief items for the evening were choosing the name of the groups and making the C. G. I. T. code. The name chosen was "The Happy-Go-Lucky Group."

"What do you think of my doughnuts?" asked a young bride when her husband was testing some she had cooked the other day. "I think they are wonderful," he replied. "Scientists have been trying for a long time to invent artificial rubber, and here you've hit on it the very first time."

## What Have You Learned About Life?

A world-wide organization of men recently conducted a contest, requesting letters on the subject: "What Have I Learned About Life?" Numerous replies were received, and the writer of this column feels that he cannot do better this week than pass on one of the prize winning essays. It is brief, and to the point, and reads:

"Used to drive my father's car on the country roads. While bouncing along over the rough ruts on the left side, the left part of the road always appeared more inviting; but once on that side I inevitably found it just as rough or worse.

This is the first lesson I have learned about the roadway of life. The other side is deceiving. The boy longs to be a man, and the old man glorifies the golden days of his youth. The poor yearn to be rich, while a larger income consistently calls for more expense. But the successes and gains of life are not in the future or the past, nor in the other man's back yard. They lie within our own reach at the present time and in the present conditions. Life has lined us up for an even start.

The second thing I have learned about life is that God hasn't finished the job. We rejoice in the accomplishments of science, religion and social relationships, but yet in the crowded ways of life we find vile strife, unbrotherliness, political corruption and the curse of a maladjusted industrial order. Civilization is in its infancy, and its growth will depend on us of the present generation. There are still new worlds for men to conquer.

It doesn't take long for one to learn that there is no getting by in the long run of life. Being born into the world with this or that fortune or pedigree does not guarantee that one shall have a sturdy character and a personality that shines like the morning sun. Regardless of where a man starts in life, those things of lasting value, education, religion, business power, a strong and virile physique and a happy home life are obtained only by long hours of patient and arduous toil and self-discipline which alone are the harbingers of a radiant and masterful personality. There are no sales and charge accounts in the market places of life. The price of the best is constant.

Finally I have learned that there is enough happiness in life to go around. No man is cut off from his heritage of happiness even though it be interspersed with hardships and sorrows. To be able to see the vision of life's task in spite of the cramped quarters of a small job; to find outlet of soul and character in stooping to help a brother while persecuted by others; to rejoice in the exaltation of personality while crushed in the wheels of industrialism; and to be happy in a great and thrilling quest with the fresh dawn of each immortal day—this is the major lesson of life.

## Shipping Asbestos To Japan

About Eighty Per Cent. Used Is Produced In Canada

"The market in Japan for asbestos in lump, powder and fibre as well as in packing and other forms is increasing year by year owing to the expansion of industrial plants using this material and to the great variety of uses to which asbestos products are being put in everyday life," according to James A. Langley, commercial secretary to the Canadian Legation at Tokyo, Japan, in an article in the October issue of the Commercial Intelligence Journal.

About 80 per cent. of the asbestos used in Japan comes directly from Canada, a small percentage from Russia and the balance through one or two English concerns interested

in the African asbestos deposits. The demand for asbestos powder and fibre runs to about 12,000 tons.

## Will Teach First Aid

Art To Be Taught At Balfour Technical School In Regina  
The art of first aid is to be taught in specially established classes at Balfour Technical School in Regina. The school is co-operating in this work with the St. John Ambulance Association and a statement issued at Ottawa by the association said this new departure illustrated the increased recognition being given the necessity for knowledge of first aid in industry.

The step is being taken by Balfour school with a view to enabling employers in Saskatchewan to comply with the regulations of the Workmen's Compensation Board which requires that employers having 25 or more persons on their pay rolls maintain a first aid room in charge of a competent student of the art.

## Making Trial Shipment Of Western Cattle

Prominent Ranchers Send High Class Animals To Old Country

Jack Byers, Sr., livestock promoter, attached to the Dominion Department of Agriculture, has taken a trainload of range steers, two, three and four years olds which were contributed by a number of prominent ranchers of Saskatchewan and Alberta, as a trial shipment of high-class cattle to the Old Country markets.

The shipment is being supervised by the Federal Department of Agriculture from loading to market. Mr. Byers sailed from Montreal to Manchester on October 30.

## Veteran Government Worker

Walter Todd Has Served In Civil Service For More Than Half a Century

Walter Todd, for more than half a century clerk of committees and private bills for the House of Commons, died at Ottawa recently in his 74th year. His illness had been of brief duration.

The 57 years Mr. Todd spent as a government worker made him, in point of continuous service, one of the oldest members of the civil service. He succeeded his father to the position of clerk of committees in 1874.

In addition to the coincidence that father and son gave many years to the same post in the service of their country, one other peculiar incident stood out similarly in both their lives. In 1848 when the Parliament buildings, then situated in Montreal, were fired by an angry mob during the agitation which followed introduction of the Rebellion Losses' Bill, Mr. Todd's father cut the portrait of Queen Victoria from its frame while the structure about him was in flames.

In 1916 when the Parliament buildings at Ottawa again went up in flames, Walter Todd cut the same portrait of her late majesty from its frame and once again the canvas was saved by a Todd.

## Newspaper Convention

Provincial Meeting In B.C. Of Journalists On Daily and Weekly Publications

A provincial convention of the men and women who are engaged in the editorial departments of the daily and weekly press of British Columbia, the first of its kind in Canada, is planned for a late week-end in February, preliminary arrangements having been made at a meeting of the provincial executive committee of the B.C. Institute of Journalists, held in Vancouver.

The convention will coincide with the annual dinner of the Vancouver branch, which will act as host to the out of town members who are expected to assemble from all parts of the province.

## Woman's Fortitude

Forces Herself To Smile Through Pain

"I never seem to find time to rest," says many an overworked housewife. Under smiles and forced cheerfulness she conceals weariness and depression; headaches and backaches. Often she is in real pain, but still refuses to give up. This very fortitude is apt to be her undoing. If she continues to neglect the signals of distress she will sooner or later suffer a serious breakdown.

A noted doctor has stated that nine-tenths of the ills of womanhood are due to poor blood. That anaemia is the cause of the low spirits, the poor appetite and palpitation that make life a burden for so many.

There is no need, however, for women to suffer in this way. All the miseries of anaemia can be banished by taking Dr. Williams' Pink Pills. These Pills create an abundance of new, rich, red blood and this new blood will bring strength and vitality to nervous, overtaxed women. The Pills are sold by all medicine dealers or by mail at 50 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

## Industry May Develop

Horse meat has never been considered a delicacy among Canadians, but frequent inquiries have come from Europe as to Canada's ability to provide such food. Already a temporary abattoir has been provided in Calgary. If the demand, which comes from Rotterdam, continues it is expected that permanent plants will be built and an effort made to completely supply it.

To safeguard the child from damage that worms cause, use Miller's Worm Powders, the medicine par excellence for children. These powders will clear the system entirely of worms, will regulate and stimulate the organs injuriously affected by the worms, and will encourage healthful operation of the digestive processes. As a vermifuge it can be relied on for its effectiveness.

Before a man can wake up and find himself famous he must first wake up and find himself.

## Chest Colds

Minard's Liniment is recommended in cases of bronchial irregularity. To get it on the affected part, or inhale it as necessity dictates.

A fussy old woman inquired of a black porter the time of the train to Chicago. She then went to a white man and asked him. The negro went to the white man afterwards, and said with a smile, "Perhaps she will believe it now she has got it in black and white."

## This new Kitchen Help will save you Time

This New Magic Cook Book contains more than 200 tested recipes. Your copy is all ready for mailing. Send for it.

Keep a copy of the New Magic Cook Book handy and you'll never have to worry about what to serve.

Whether you need a suggestion for lunch... for dinner... or for your tea guests, you'll find the answer in this new handy housewife's help.

It's a compact, complete directory of all the good things you'll ever want to make for any occasion... and it's FREE!

Send us your name and address and a copy will be mailed. Write to-day.

3 out of every 4 Canadian women, who bake at home, say they use Magic because it gives consistently better baking results. If you use Magic Baking Powder, it will ensure better baking results for you too.

Look for this mark on every tin. It is our guarantee that Magic Baking Powder does not contain alum or any harmful ingredient.

## Would Cancel War Debts

President Beatty Of the C.P.R. Tells People Of U.S. That Cancellation Would Bring Back Prosperity

"It is not for me or any other citizen of the British Empire to discuss either publicly or privately the propriety or otherwise of war debt cancellations," E. W. Beatty, K.C., president of the Canadian Pacific Railway Company, said in a speech at Pinehurst, N.C. "But it is not surprising that men of great vision in the United States have reached the conclusion that if they were removed, industry would be stimulated, trade would expand and prosperity would return."

The railway president was addressing a banquet of the eighth annual convention of the American Institute of Steel Construction. He surveyed the amity existing between the United States and Canada, outlined the importance of railroading to the two countries and spoke of business depression and the reason for that situation in Canada. The interruption to the marketing of Canadian goods, the direct and indirect results of the stock market collapse of last fall and the somewhat unsatisfactory present conditions respecting the newspaper industry, were the principal contributing causes to Canada's present depression, Mr. Beatty felt.

The United States Mr. Beatty said, had reached a population of 75,000,000 before its export business equalled the amount of that of Canada in 1927. "It speaks well for a country's progress when with less than 170,000,000 people it can produce this result," he said.

## Alberta Gas Contains Very Little Helium

Report States Extraction Is Not Considered Economically Feasible

Alberta gas contains an element of helium but evidently not of such quantity as would make its extraction economically feasible it has been stated at the Interior Department.

About 1917, during the war, some interesting experiments were conducted at Calgary by Prof. J. C. McLennan, of Toronto University. It was found that whereas, in the Texas gas, there is a content of 3 per cent helium, the Alberta content did not exceed a third of that figure. No commercial helium was extracted at all.

The problem was one of economic feasibility, and as stated this was not demonstrated. Soon afterwards the war closed and the experiments ceased though the results were made available to the research council, and to some extent the possible developments are still being explored.

## Uses Of Volcanic Dust

Volcanic dust is mainly used in the manufacture of cements, securing powders, and abrasive soaps, but latterly, outside Canada, there has been an increasing demand for its use as an admixture in cement and plasters. Volcanic dust beds up to thirty feet thick are being worked near Swift Current, Saskatchewan. There are other beds in British Columbia.

## Should Be Satisfied

A fussy old woman inquired of a black porter the time of the train to Chicago. She then went to a white man and asked him. The negro went to the white man afterwards, and said with a smile, "Perhaps she will believe it now she has got it in black and white."

The finest diamonds come from the neighborhood of fresh-water rivers.

## Dairy Production Increases

Increasing Demand For Dairy Stock In Prairie Provinces

"Statistics of dairy production at the present time indicate that there is an appreciable increase in milk and cream production all over Canada at the present time," observes Dr. J. A. Riddick, Dairy Commissioner of the Dominion Department of Agriculture. With respect to butter production Ontario and Alberta show a 15 per cent increase for the first six months of the production year. Cheese production, of which 97 per cent, is centered in Ontario and Quebec, was 30,000 boxes behind last year as at October 11. One of the interesting features in the dairy industry at the present time is the increasing demand for dairy stock in the Prairie Provinces.

## Two Sections In Grain Show

Growers should bear in mind that there are really two sections in the wheat classes of the World's Grain Show, Regina, in 1932. One section is five classes, calls for an exhibit of fifty pounds, the other for an exhibit of ten bushels. The smaller exhibit will, of course, admit of much more careful selection than will the larger. The ten-bushel sample may be prepared with cleaning machine, but this should be done very thoroughly.

## Postage Stamp Changes

New Color To Be Adopted In Printing New Issue

Full styles in postage stamps will show a radical change in color scheme. Within a month, or sooner, if present stocks are exhausted, a new issue of stamps up to the eight cent denomination will be released by Canada's Post Office Department. Basic colors will be changed in conformity with regulations of the Universal Postal Union, of which Canada is a member.

The one cent stamp will change its "dress" from orange to green; the two cent stamp will be red in place of green as at present; the mauve five cent stamp will make way for one of blue and the eight cent postal carrier will give up its blue color for a modish orange.

## New System Of Lighting

Dummy or imitation "windows" are providing a superior kind of illumination for new office buildings in London, England. Concealed electric bulbs that simulate daylight are in the windows, which are constructed so as to resemble real windows in size and shape. Tests have proved that work is easier under this high light in the light provided by the customary indirect glow from overhead bowls.

## Felt Tired Out All Day Could Not Sleep at Night

Mrs. Aldamond Lalonde, 2481 St. James St., Montreal, Que., writes:—"After a spell of the gripe I was left very nervous, and felt drowsy and tired out all day, and could not sleep at night. I was also troubled with my heart and did not feel at all like working. I was told about Milburn's Heart and Nerve Pills and after taking four boxes I was completely relieved of my trouble, and can recommend your Pills to everybody."

Sold at all drug and general stores, or mailed direct on receipt of price by The T. Milburn Co., Ltd., Toronto, Ont.

Price 50c. a box

## Foods Stay Fresh Longer This Way

Covered with Para-Sani Heavy Waxed Paper goods that usually stale in a day or so stay fresh for quite a long time. Try it. Get Para-Sani in the bag, sanitary, knife-edged carton at grocer, druggist or stationer. For less exacting use get "Centre Pull" Packs in sheet form.

## Marketing Grain Through Livestock Production Will Solve Problem Of Western Farmer

Whether to sell grains through livestock or for cash has been a question much discussed in the past. The question of the effect of concentration production on the sale of grains for cash has now been pretty well settled. What about selling them through livestock? Particularly attractive features about selling grains for cash have been the relatively low amount of labor and skill involved and the rapidity with which the cash could be secured. But this latter advantage has disappeared and now it is a question of whether we shall do the work and learn the skill.

Attaining skill costs money, but it should not be charged into costs of producing, say, hogs. It is an investment which will always return big interest. It is largely a matter of will and intelligence.

Many farmers can feed considerable numbers of livestock without increasing the amount of money, no-

cost of hogs should not exceed 500 lb. to each 1000 lb. of hog produced. Under reasonably good management the quantity should not exceed 450 lb. Where, as in the East, milk supplements are available, 100 pounds of hog are being produced by many farmers with the equal, including the milk, of 400 lb. of grain, while some men with very good breeding stock and skilful feeding are using even less. This is where one (but only one) of the big features of cost of production comes in. Such results are the reward of a steady policy persistently carried out over the years.

The farmer who has steadily added to his equipment and skill in this way is not worrying about the low price of grains. Rather he is benefiting by it. Even in the years of the highest priced grains he still has averaged a fair margin over grain prices. Sometimes it is necessary to feed hogs for returns that do not exceed the cash

### Grain Values When Fed to Hogs

In the table below is shown the value of a bushel of wheat, barley, oats and when fed to hogs at the rates of 200 lb., 400 lb., 400 lb., and 875 lb., to produce 100 lb. of hog when the selling price of hogs ranges from \$10 to \$6 per 100 lb. For instance, in the first line of the table it will be seen that when hogs are selling at \$10 per 100 lb., wheat fed in the ratio of 5 lb. to make a pound of hog would have a resultant value to the farmer of \$1.20 a bushel, barley a value of 96 cents, and oats a value of 84 cents. The table form a sort of conversion table or ready reckoner of values and are to be read in that manner.

When 200 lb. of Feed are used to produce 100 lb. of Hog				
Hogs	Wheat	Barley	Oats	
at \$10	1.20	.96	.84	
9	1.08	.86	.76	
8	.96	.76	.64	
7	.84	.67	.52	
6	.72	.57	.41	

When 400 lb. of Feed are used to produce 100 lb. of Hog				
Hogs	Wheat	Barley	Oats	
at \$10	1.50	1.20	.85	
9	1.35	1.10	.76	
8	1.20	.96	.67	
7	1.05	.84	.58	
6	.90	.72	.51	

tually paid out for labor. The others must choose whether they will utilize a part of their labor in making the bushels of grain that they raise produce a better average income than they can get for them when cashed in as grain. Much of the idle time of farmers, especially in winter, can be with proper management, be well utilized in feeding livestock.

In the accompanying tables is given the value of a bushel of grain when fed to hogs. A range of prices for hogs is given and a range of quantities fed to produce a hundred pounds of pork. Two things stand out in these tables. The one is that at a price as low as \$6.00 per 100 lbs. for hogs, which is lower than prices have been for many years, barley, oats and the poorer grades of Western wheat will still yield very good values indeed per bushel. The other outstanding feature is that skill and management can largely increase the price per bushel received for grain when it is sold through hogs.

Under the worst conditions the feed

values of feed grains, but one thing that should sink into the minds of every person interested in the livestock industry is the utter foolishness of reducing breeding stock because of a temporary condition.

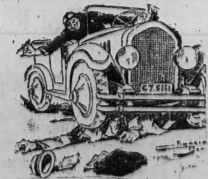

It will be understood that while the accompanying tables give the feeding value per bushel of wheat, oats, and barley separately it is, of course, advisable to feed them mixed one with the other. A good ration for growing pigs would be equal weights of wheat, oats, and barley, or for finishing, a bushel each of the same grains. Any one of the grains fed alone would not have its maximum value. Furthermore, the tables are not intended to be absolute, but are indicative of the values that may be obtained from grain when fed to hogs. In view of the price levels to which grains have been reduced they are emphatically suggestive of the wisdom of a policy that includes in its programme the steady, persistent maintenance of a considerable production of livestock on every grain farm.

### B.C. Apples Win Cup

Finest All-Round Exhibit At Imperial Fruit Show

High honors in the Imperial Fruit Show in London, England, have been won by British Columbia apples exhibited by the Associated Growers of the Okanagan Valley in competition with fruit from all over Canada, according to cable advices received by the B.C. Department of Agriculture. The British Columbia fruit has been awarded the cup presented by the agent-general of all Canadian provinces in London, England, for the finest all-round exhibit. This trophy was won by Nova Scotia last year. The award is based on the total marks received by all classes of fruit shown by any exhibitor.

There should be no pessimism in a country with the advantages and possibilities which Canada possesses.

"Your autograph, please. You are the first man I have run down to day."—Musket, Vienna.

W. N. U. 1933

### Revenue Dollar Cost

Larger Capital Investment Needed To Farm In Western Canada Than In The East

The Bureau of Statistics at Ottawa provides some interesting information with respect to the amount of capital investment in land, buildings, equipment and livestock it takes to earn a dollar of production revenue in Canada. Using the figures provided by the Bureau's estimates with respect to last year we find the investment cost of producing the revenue dollar by Provinces was:

Prince Edward Island	\$3.58
Nova Scotia	3.87
New Brunswick	4.50
Quebec	4.55
Ontario	4.47
Manitoba	5.24
Saskatchewan	5.56
Alberta	4.80
British Columbia	4.54
Dominion Average	4.78

It requires a larger capital investment to farm in Western Canada than in the East—Dominion Department of Agriculture.

World Has Six Million Blind  
Lewis H. Gault, of New York, managing director of the National Society for the Prevention of Blindness, in an address told the International Association that the world's blind population, numbering between 3,000,000 and 6,000,000, probably should be reduced to half that number within a generation by intelligent scientific effort. The International body met at the Academy Palace with the president, Prof. de la Peronne of Paris, presiding.

### Largest Turkey Ranch

Alberta Farm Woman Makes \$10,000 This Year In Raising Turkeys

Nine years ago, Mrs. W. A. Freeman, of Ardenoda, Alberta, a native of Wisconsin, U.S.A., won a pair of bronze turkeys in a raffle. She now has the largest turkey ranch in Canada and is the acknowledged queen of turkey raising in the Dominion. Her turkeys will return a revenue of \$10,000 this year.

The winning of the pair of turkeys in the raffle suggested to Mrs. Freeman the idea of raising turkeys as a side line. She applied to the Canadian Federal and Alberta Departments of Agriculture for literature on raising poultry, turkeys in particular. Her husband, a farmer, encouraged her to experiment in the business. She studied the literature carefully and followed the advice given. Her ranch is now famous. She receives letters from all parts of the North American continent and to other countries.

This year she has raised 2,500 birds. Three hundred hens, all government inspected, have supplied the demand for eggs in 1930 and 45 of the most perfect hens have been selected for first-class breeding stock. A revenue of \$2,000 has already been obtained this year from the sale of eggs, and \$2,500 from the breeding stock. The receipts from the sale of table birds for Thanksgiving and Christmas are expected to bring this year's total up to \$10,000.

The Freeman farm on which the turkeys are raised has a creek running through it, which supplies a constant and plentiful supply of good water, an essential for successful turkey raising. The soil is sandy, which assures good drainage. Most of the chicks are hatched in incubators. After hatching the chicks are sheltered for about 10 days in large coops and then allowed to roam. The main flock is kept on about 300 acres of land, fenced in. Scrupulous attention is paid to the cleanliness of the sheds, roosts, etc., which are sprayed with single oil from time to time, to destroy fleas, lice, etc.

Mrs. Freeman believes that any woman on the farm prepared to give the necessary care and attention can meet with an equal measure of success in the business. Next year she plans to raise 5,000 birds for eating, and her total revenue will likely be about \$15,000.

### Livestock Industry Developed

Saskatchewan Farmers Avail Themselves Of Stock Feeder Plan

Considerably more than 1,000 head of steers already have been placed under the stocker-feeder scheme instituted by the Saskatchewan Government of the beef-finishing industry in Saskatchewan during the short period the scheme has been in operation. Announcement to this effect has been made by Hon. W. C. Buckle, Minister of Agriculture. In making the announcement, Hon. Mr. Buckle stated that 40 Saskatchewan farmers already had availed themselves of the new option under the Livestock Purchase and Sale Act, the total amount involved, including freight charges, being \$37,331.

### Dry Wood

Dry wood will neither stain nor rot, but if it again picks up moisture it is not immune from disease.

It is believed that the reign of Papi II, of the sixth Egyptian dynasty is the longest on record. He ruled for 91 years.

(By Annette)

### SCHOOL GIRL SMARTNESS EXPRESSED IN NEW CREPE WOOLLEN WITH BECOMING FLARE

It's one of the most effective interpretations of the season in Patou's dark green crepe woolen in a shadow check pattern.

A narrow belt with green enamel buckle places emphasis on the natural waistline.

The scalloped neckline is smart, agreeing with the scalloped line of the shoulder yoke. The skirt is circular with just enough fullness to make it gracefully comfortable for school days.

Style No. 907 is designed for the miss of 8, 10, 12 and 14 years.

Brown and white tweed of lightweight texture is very fashionable in a tiny checked pattern.

Wool challis prints, wool jersey, rayon novelties, covert cloth, linen, cotton broadcloth and tweed like cottons are very smart for classroom and sturdy as well.

Size 8 requires 2 1/2 yards 39-inch.

Send 25 cents (in stamps or coin) to Fashion Bureau. Write carefully and plainly your full name and address, the number of the pattern and the size you want.

### How To Order Patterns

Pattern No. .... Size .....

### Manitoba University

The University of Manitoba, at present situated in the heart of Winnipeg, is to move to the outskirts of the city on the site of the Manitoba Agricultural College, five miles south of Winnipeg. Work has begun on the erection of a new arts' building to cost over \$416,000. The Agricultural College buildings are an imposing pile, representing an expenditure of \$4,000,000.

### CANADIAN HOTELS ASSOCIATION

Provincial directors and officials of the Canadian Hotels Association photographed at the Royal Alexandra Hotel following an annual meeting at which representatives from all parts of the Dominion were in attendance. From left to right, they are: H. C. Brown, Charlottetown; C. A. Tanner, managing director and secretary-treasurer, Wes Champ, Regina, president of the Saskatchewan Association; Mayor Ralph Webb, of Winnipeg, who founded the Canadian Hotels Association; George Skinner, Winnipeg, Manitoba director; E. B. Sweeney, New Brunswick director; and A. Manley, Vancouver, British Columbia director. Inset, is B. A. Neale, manager of the Royal York Hotel, Toronto, who was appointed president of the association for the coming season.

## Fifth Biennial Conference Of British Empire Service League To Be Held In Canada In 1931

### Growth Of Prairie Provinces

Alberta and Saskatchewan Have Made Great Strides Since Provinces Were Created In 1905

It is just 25 years since the provinces of Alberta and Saskatchewan were created. At that time the population of Alberta was 185,000. It is now about 650,000. Saskatchewan in 1905 had a population of 195,000; now it is about 887,000. The total area under cultivation in Alberta 25 years ago was 660,000 acres; in Saskatchewan 2,000,000 acres. In 1930 Alberta had 15,000,000 under crop, and Saskatchewan 30,000,000 acres. The dairy production of Alberta has advanced in value from \$2,000,000 in 1905 to over \$20,000,000 this year. Similar progress in dairying has been made in Saskatchewan.

Progress has been equally as notable in a number of other directions in each of the two provinces. In 1905 there was comparatively no manufacturing in either Alberta or Saskatchewan, now the value of the annual industrial output is over \$159,000,000 of which Alberta accounts for \$100,000,000 and Saskatchewan \$59,000,000. Each of the two provinces has a well equipped university, several high schools and many hundreds of public schools. From mere frontier towns of 25 years ago, Calgary, Edmonton, Lethbridge, Medicine Hat, Regina, Saskatoon, Moose Jaw and other places have grown into well established and beautiful cities, with every advantage found in any of the older cities of the new or old world.

These two provinces, the youngest of the nine that form the Dominion of Canada, have certainly acquitted themselves well since their admission into the family group a brief 25 years ago.

### South African Wheat Pool

Formed With The Object Of Organizing The Wheat Industry

A wheat pool for South Africa has been established with headquarters in Capetown, according to advice received by the Department of Trade and Commerce, Ottawa. The new wheat pool was organized as a result of a meeting in Pretoria recently of representatives of the Transvaal Free State, Eastern Province and Western Province.

The organization will be registered under the Co-Operative act, and is the culmination of deliberations of a committee appointed at the farmers' conference in January, with the object of organizing the wheat industry. The object of the scheme is to stabilize prices so that ultimately South Africa will produce sufficient wheat to meet its own demands. Millers of the country are reported to be in unanimous agreement with the project. The price paid for wheat will be according to grade, calculated more or less on value of Australian wheat, and prices will be established towards December in accordance with ruling world prices.

It is considered, according to the report received, that there will be no danger that the stabilization of the price of wheat will affect the price of bread as it requires at least eight shillings a bag for wheat before the price of bread will be increased and this is not considered likely to occur.

### How Time Is Spent

Frenchman Has Been Investigating and Gives Some Interesting Figures

A Frenchman with a liking for curious figures has been counting up the time that a man ordinarily devotes to common occupations of life. He finds that a man of seventy has usually spent about nineteen years working, twenty-three years in bed, nine years amusing himself or being amused, one year in church, and two years shaving himself. This last portion of time he seems to consider as one of the great wastes of life. But trying to imagine what we should look like if we all had heads we are not inclined to agree with him. Even if we did all save some time from shaving there isn't any real guarantee that we would put that time to any better uses.

### A Great Bird Lover

The Duke of Rutland does not take so prominent a part in public life as some of his predecessors in the title, but he is keenly interested in agriculture and an ardent nature-lover, who cannot bear to see wild creatures—especially birds—in cages. Once when abroad he found in a market place a big consignment of caged skylarks for sale. He bought the lot—about 500—and had them set free.

### New Air Mail Service

Announcement was made by the postmaster-general's department of the inauguration of a regular air mail service between Peace River and North Vermilion, Alberta. The route will be via Calgary and Fort Vermilion. No definite date for the first flight was made, but it will take place early in December.

"Madam, this sovereign is bad." "Bad? Impossible!" "Boy! Get mummy, I told you you would not get rid of bad money at this shop."—Buen Humor, Madrid.

### VIKING

The gas lights which have served as a street lighting system for the past three years have been replaced with electric lights, supplied by the Calgary Power Co. The lights were turned on for the first time on Friday evening, and they seemed quite equal to the gas lights which have been the pride of the town since being installed. Viking now has two utilities, natural gas supplied by the Northwestern Utilities, and electric energy supplied by the Calgary Power Co. Any town having these two desirable utilities may well feel that they are pretty well situated.

Representatives of the merchandise department of the Calgary Power Company held a demonstration of electrical appliances here on Saturday, Tuesday and Wednesday, when they demonstrated the efficiency of electricity in the home. Washing machines, radios, refrigerators, vacuum cleaners, toasters, percolators, electric irons, heaters, stoves, etc., all operated by the new power were shown in the Furniture store, under the supervision of Messrs. Thos. Armitage, A. A. Fry, and M. B. Brooks, of the Calgary Power staffs.

The construction crews of the Calgary Power Company completed their work in town on Monday and moved to Bruce. The members of the various crews that have done work in the town were a well behaved bunch of fellows, and they made many friends while stationed here, and they did their work efficiently and well.

The local Shoppe-Rite Store has installed a new automatic cash register that is operated by the new electric power. It is a marvel of construction and efficiency in that it registers the amount of purchase, date of purchase, kind of purchase, name of store, number of clerk and ticket, also registering the total sale, and includes a coupon ticket, and receipt for money paid.

Mrs. Hall, of Spokane, Washington, is a guest at the home of Mr. and Mrs. C. G. Purvis. Mrs. Hall's sister of Mr. Purvis visited here some few years ago.

"Buzz" Jones was home from Turner Valley where he is employed. He expects to play hockey in Calgary this winter with one of the best teams in the city.

Hilliker Bros. store front has been treated to a new coat of paint which brightens up the appearance of this store which is one of the oldest established in town.

Mr. and Mrs. Center and two children Glen and Margaret, and Miss Jean Davidson, of Inisfail, were guests at the Basil Hilliker home over the week end.

The town bell was rung on Tuesday at two minutes to eleven o'clock in the forenoon in conjunction with the Empire wide observance of Armistice Day. People in all walks of life stopped their daily pursuits for two minutes in memory of the fallen dead.

Miss Dorothy Syme who is teaching near Edgerton, spent Thanksgiving day here with her parents, Mr. and Mrs. Peter Syme.

Miss Olive Runyon, who is training as a nurse in one of the Edmonton hospitals, spent the holiday here with her parents, Mr. and Mrs. B. W. Runyon.

Miss Bertha McHenry, of the Bank of Montreal staff, was a guest of friends in Edmonton over the week-end holiday.

Miss Ruth Vivash returned to Edmonton on Tuesday evening after spending the week-end at the home of her sister, Mrs. Percy Finch.

Messrs. H. B. Rogers and A. Morris attended the school teachers convention in Edmonton last week.

An enjoyable dance was held after the chautauqua program Tuesday evening, music being supplied by Clinton's orchestra.

A. T. Richardson, manager of the Bank of Montreal at this point, spent the week end with friends at Wainwright and Jarro.

Miss Phyllis, third year student at the Alberta University, spent the Thanksgiving holiday here with her parents, Mr. and Mrs. H. B. Collier.

Mr. Hicks, former superintendent of schools here, but now of Daysland, spent the week-end at the J. Alexander home.

Allan Roddick, of the Bank of Montreal staff in Edmonton, passed the holidays at the home of his parents here, Mr. and Mrs. R. H. Roddick.

Mrs. M. M. McLeod was down from Edmonton on Tuesday attending to some business affairs.

Rev. Fr. O'Neill is spending a few days in Edmonton this week.

Mr. and Mrs. Hunter, of Westlock, were guests at the home of Mr. and Mrs. Angus Ross on Monday.

Miss Alice Stevenson, who is teaching at Provost, was a guest of Rev. and Mrs. Bainbridge over the holidays.

Mrs. J. L. Dods left for Edmonton Monday evening to see Cliff Skinner, her son in law, who is reported quite ill.

Mrs. Stanley Richardson left on Tuesday evening for Edmonton.

### Here and There

(327) The reason why interference by the government in business, or worse, the active engagement by the government in business, is harmful, is because it is not accompanied by efficiency, and inevitably, means waste and increased taxation. It was the most outstanding statements made by E. W. Beatty, chairman and president of the Canadian Pacific Railway, in an address at the annual dinner of the Canadian Chambers of Commerce held at Toronto recently. It was, he thought, a dangerous tendency and one that should be combated by Canadian and American business men.

There are at present in the Province of Quebec 33,000 miles of rural roads, of which 5,316 miles are first-class roads, 5,875 miles second-class and 18,809 third-class. Over 13,500 miles of roads in the province or about 41 per cent. are permanently improved and surfaced with either concrete, macadam or gravel.

Thoroughly representative of Canadian business across the breadth of the Dominion from Montreal to Vancouver, members of the Canadian Chamber of Commerce left the latter city October 16 on the Empress of Russia for the Chamber's official tour of Japan and the Orient. The party includes financiers, editors, manufacturers, professional and business men of national reputation. It is the most important delegation ever to leave Canada for the Far East.

Sir Benjamin Robertson, member of the Council for India, who has just completed a seven-week tour of Canada from Atlantic to Pacific, said he had been greatly impressed both by the people and the possibilities for economic development of the Dominion. He was much gratified to find throughout Canada a feeling of loyalty to the Empire which "one recognizes almost instinctively." Sir Benjamin, who came to Montreal on the Metagama, August 29, left Saint John for New York to return to England October 9.

Since the new steamer Princess Helene was put into service on the Bay of Fundy route August 27, there has been a noticeable increase in the number of passengers, slightly more than 25 per cent. in the general traffic on the route between Saint John and Digby, reports issued recently by the Canadian Pacific Railway reveal.

"Lack-a-day Lili" enigmatical young person whose character is chockful of surprises, made her first radio appearance on a recent Monday evening in the program from "Melody Mike's Music Shop," new Canadian Pacific Railway radio feature. The programme is broadcast over the C.P.R.'s transcontinental network of Canadian stations linked together by the broadcast transmission system of the railway, including ten stations in western Canada. Many tunes and songs, including old-time favorites and popular songs, are incorporated in the programme from Melody Mike's music emporium.

Addressing the Teachers' Convention held at Montreal recently, Major G. G. O'Malley, director of the department of development, Canadian Pacific Railway, adduced a wealth of data and figures to support his contention that nothing could stop the Dominion's future progress and growth.

Outranching all other entrants to the British Columbia Boys and Girls Swine Club second annual judging contest held near New Westminster recently, Ernest Naughton and Wilbert De Leeuw, 14-year-old livestock experts of Kamloops, annexed the Canadian Pacific Railway cup and medals, as well as a free trip over the company's lines to Toronto to attend the Royal Winter Fair where the final judging contests of the Dominion Boys and Girls Swine Clubs will be held.

Interviewed as to a press despatch that the Consolidated Mining and Smelting Company had large stores of unsold metals and was reducing wages, J. J. Warren, president of the company, said that at the end of September a little more than half a month's production of lead was on hand unsold and a little more than two months' production of zinc, while October sales had been heavy. He added that while the metal bonus paid employees varied with metal prices from month to month, the base wage scale had not been cut.

An indication of the value of Canadian agriculture is given in a recent official estimate of the agricultural wealth of the Dominion. Total value is placed at \$7,978,633,000 of which \$3,216,061,000 is for lands.

Patrols carried out by the Royal Canadian Mounted Police by dog-team and boat in the eastern and western Canadian Arctic during 1928 totalled approximately 25,000 miles—sufficient to circle the globe at the equator.

A total of 461 pupils have been enrolled and 1,200 application forms have been sent out in response to requests in connection with a correspondence course by which the Saskatchewan Department of Education has made high school instruction available to all students in the province unable to take advantage of the ordinary facilities.

Great Bear Lake, in the Mackenzie district of the North-West Territories, is the largest lake wholly within the Dominion. Its area is approximately 12,000 square miles.

### VIKING

A very pretty though quiet wedding was solemnized at Anglican church on Friday, November 7th between Mr. Stanley Richardson and Sybil Francis Sherman. The Bride was prettily attired in beautiful brown silk and was accompanied by her mother, Mrs. Sherman of Edmonton. The Bridegroom looked very smart in navy blue and was accompanied by his aunt, Miss Richardson. Mrs. Gillespie played some very beautiful music in her usual style and after the ceremony the congregation sang "Thine for ever God of Love." The Rector, Rev. A. Loydall-Bee L. D., performed the ceremony and gave the newly married couple an inspiring address on the unity which should exist between man and wife, without which their cannot be perfect love, advising the newlyweds at all times to take their joys and troubles to each other, to remember and bear in mind the unity which exists between Christ and His Church. The Rector said that at all times the Church was open and that he was always ready to receive his people to give help and spiritual advice; he hoped the newlyweds would avail themselves of his services.

Wm. Richards, of New Norway, is a visitor in town today.

Miss Dorothy Jones, who is attending the University, was at home for Thanksgiving.

The C. W. L. held a very successful home cooking sale in the town hall last Saturday afternoon.

Mrs. W. E. Henton left for Edmonton Monday evening for a short visit.

Miss Helen Burnham visited at the home of her parents, Mr. and Mrs. A. Burnham, over the week end.

F. W. Venner and family motored up from Stettler on Sunday and spent the week end at the home of Mr. and Mrs. Basil Hilliker.

The home talent play "Turning the Trick," will be staged at Killam on Wednesday evening, November 19th, under the auspices of the Ladies Auxiliary of the United Church of Killam.

A number of returned men from this district attended a memorial service at Sedgewick on Sunday afternoon. There was a parade to the memorial where a wreath in memory of fallen comrades was laid, after which the crowd gathered in the hall where a stirring address was given by Lieut. Col. Wells, supt. of St. Joseph's College, Winnipeg.

## Cutting Down Travel Time

No matter how anxious travellers may be to spin out their holiday to the ultimate minute they always manifest a certain amount of impatience when once they have left their ship and the formalities of Customs inspection necessitate a slight delay on the pier.

To overcome this the Canada Customs at Montreal and the Canadian Pacific Steamships are co-operating in a new service to incoming passengers. On the four palatial 20,000-ton Duchess liners Duchess of Atholl, Duchess of Bedford, Duchess of Richmond, and Duchess of York, the largest liners to sail direct to Montreal, Customs officers, baggage checkers, and porters board the ship at Quebec.

Customs examination of heavy luggage is carried out on the ship during the 10-hour voyage from Quebec to Montreal, baggage is checked through to its destination and the passenger is enabled to walk off the ship, pause but a moment while hand-baggage is looked over, and proceed direct to the waiting train.

Photos show scenes at the inauguration of the new service on the Duchess of Richmond recently. Invoices in hand the fair traveller is telling the inspector how much the package cost. The honeymooners, customs inspection over, are checking their trunk—judging by the length of the tickets they must be going to Banff, at least.

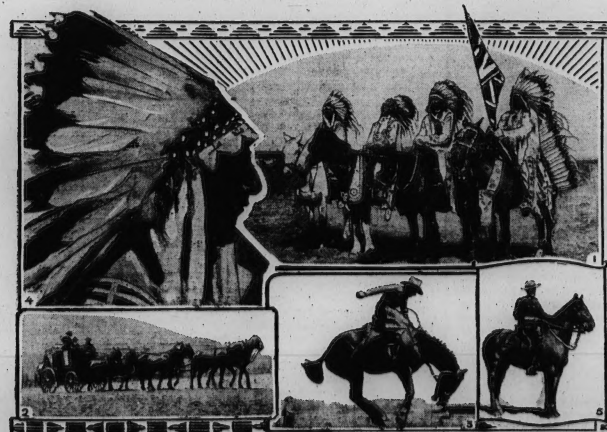

## Bring Home Superb Heads

The hunting season is in full swing in the Province of Quebec. In the middle of October a party of three Nimrods left the Gray Rocks Inn, St. Jovite, Que., and took a hydroplane trip into the north to investigate moose hunting prospects. They got a big surprise and one of the highlight moments of their careers as hunters of big game. One of the party bagged a moose with the magnificent spread of 66½ inches; another of them shot a 60½ inch head and the third also got a trophy which though smaller than either of the other two, would have ranked high in any average moose hunt. They report that

the section is unusually well stocked with the big animals. The object of the party was to get quickly into the north to spy out the land and come back later for the real hunting with all its pleasurable hardships of portaging, camping out, canoeing one's way through unknown or almost unknown territory and ending up by pitting one's brains and experience against the instinct, sagacity and wariness of the moose. They have returned to tell us of a Mecca for hunters of moose in the North. Lay-out shows the great moose-spread with hydroplane in background, and Tom Wheeler, proprietor of the Gray Rocks Inn, with guide.

## The Wonder Week of The Western World

The Calgary Stampede — Another introduction to the public of Knights of the Range, Kings of the Saddle and Rope; competing for Canadian and North American championship honors in picturesque, romantic and spectacular pageants and contests incidental to their country.

Here gather the redmen of the hills and plains, the cowboys and cowgirls from Rio Grande to the Peace River, the pioneers and the veterans of the original Royal Northwest Mounted Police who contributed so much to the growth of the West to-day. Skill and brains will compete with skill and brains when the cowboys climb the bucking broncos for the title of the world's bucking champ.

Thousands will see the old covered wagon race against the fleet bareback Indian riders, during the mock battle.

The exhibition stampede will be held July 9th to the 14th, and is to be opened by His Excellency

Viscount Willingdon, who will ride at the head of the great stampede parade. He will be accompanied by Her Excellency Lady Willingdon who herself is to participate in several events during the week. For this particular event the Canadian Pacific Railway are co-operating to the extent of offering reduced rates to Banff with stop-over at Calgary, thus enabling visitors to be guests of the Banff Springs Hotel which is only a three hour motor ride from Calgary.

NEWS AND VIEWS  
KINSALLA DISTRICT

Mr. and Mrs. J. Neale and family spent the holiday with the latter's parents at Vermilion.

Mr. and Mrs. W. L. Ferries and daughter motored to Macklin, Sask., on Sunday and spent the holiday with Mrs. Ferries' mother.

Misses Alice Murray, Maxine Wachter, and Kathleen Ferris who are attending school in Edmonton, spent the holidays at their homes here returning on Monday evening to Edmonton.

Miss Ella Cornack went to Edmonton on Monday evening where she will visit friends for a few days. Mr. Lockhart of Edson spent the week end at the home of Mr. and Mrs. Arkinall returning home to Edson on Monday evening.

Miss Merle Clark of Quinte spent a few days the past week with Miss Thelma Miller, returning home on Monday evening.

Quite a number from here attended the chicken supper at Jarow on Friday evening, which was given by the Ladies Aid. After the supper a very interesting program was given which was very much enjoyed by all present.

The Jamieson Construction Co., have closed down their camp, which has been open for the past two weeks and the men have returned to their homes in Edmonton.

Mr. Gordon Groh, who has been working for the Jamieson Construction Co., left on Tuesday morning for his home at Portage La Prairie, Man.

Miss Isabelle Stronach who is teaching near Minburn spent the holiday at her home here.

Mr. and Mrs. Kyle entertained friends from Edmonton over the week end.

Mrs. Holmes of Wainwright spent the week end at her home here with her husband and son.

The Ladies Aid will hold their Bazaar and Tea in the basement of the United Church on Saturday afternoon, November 22nd.

Misses Larue and Magrath, teachers in the school here attended the teachers convention at Wainwright last Thursday and Friday.

Mr. and Mrs. Jack Allen and daughter attended the 50th wedding anniversary of the latter's father and mother, Mr. and Mrs. Smith at Kilam on Friday, November 7th.

Mr. and Mrs. Jack Wangness of Cole Lake spent the week end with the former's brother here, Mr. P. J. Wangness.

NEWS ITEMS  
FROM JARROW

The threshing is practically finished in this district and most of the machines have pulled in for the year.

The chicken dinner and entertainment of the Ladies Aid was held on Friday evening. A good crowd was present and a pleasant evening was spent. The proceeds of the supper were about fifty dollars.

The teen age girls met on Tuesday evening at the home of Mrs. Laxton and re-organized their club. Vera Marbury was elected president, Betty Taylor secretary and Helen Doherty Treasurer. The Club will meet every Tuesday evening and a tea is planned for December 13th.

The Community Club will hold their annual meeting next Tuesday evening November 18th. Full reports of the year's work given and a full financial report of hall. Election of officers and plans for the coming year followed by a social time. Everybody interested in the Hall is urged to come to this meeting at 8.30.

Miss Helen Doherty spent the holiday at her home in Lavo.

Mr. and Mrs. Orr and family spent Thanksgiving in Consort, visiting friends.

The Memorial Service held in the hall on Sunday and conducted by Rev. Taylor was very impressive and beautiful. The hall was packed. The Girl Guides and Boy Scouts marched. Mr. Frank Harding presided at the piano and Mr. Kenna of Kinrossa Mrs. G. Comely and Mrs. Comely, sang most appropriately, also a chorus of mixed voices. Rev. Taylor gave the address and spoke in a very impressive manner.

Mrs. F. Ramsey spent the holiday with relatives in Galahad.

Mr. and Mrs. Guy Miller and family of Star, Mr. and Mrs. H. Miller and family of Bashaw, spent Sunday and Monday visiting with their parents, Mr. and Mrs. H. Miller and their brother Jack, Miller, here.

Mr. and Mrs. J. C. Curlett of Edmonton are visiting in town.

Mrs. Ed. Peet and baby Glenn are visiting friends and relatives south of

NEW AIR SERVICES  
WILL "CARRY MAIL"

Ottawa, November 12th—By the authority of the Postmaster General, Hon. A. Sauve, regular air mail service between the following points will be inaugurated early in December of this year: Peace River, Alberta and North Vermilion, Alberta, via Carajou and Fort Vermilion.

In order to commemorate the inauguration of this Canadian air mail service, the following special cachets will be used on letters carried on the initial flight: Peace River, Carajou, Peace River, Fort Vermilion, Peace River, North Vermilion, Peace River, Peace River, Fort Vermilion, Peace River, North Vermilion, Peace River.

## TAKING ADVICE

A local citizen who has been under the weather slightly, has the following to say of the friendly advice one gets from those who are always ready to give a lot of free advice on how to get well:

Every other proof you meet, In the parlor, on the street Knows just what is wrong with you And directs you what to do: "Eat the things you most despise!" "Ignore diet. Exercise!" "Chew your food more." "Bolt and gulp!"

"Most men need more roughage,—pulp!" "Cut out grapefruit! Acidosis!" "Turn to ashes—my diagnosis." "What you need is Ultra-Ray." "Rest. Relax. Go out and play." "I would say your trouble's mental." "Take up rowing—something gentle!" It matters not how loud you shout, Your so-called friends will drown you out— And if, in turn, each plan you try Take this advice: Prepare to die.

Heard at the poker party: "Does he ever bluff when he plays cards?" "Never until he gets home and tries to explain what kept him out so late."

## Let these 6 vital Salts rid you of PIMPLES

Would you like quickly to free yourself of those hideous pimples—those unsightly blackheads—and have that smooth and soft skin perfection you've always craved?

Do you want to have eyes as dazzling and bright as water dancing in a summer's sun?

Would you like to enjoy glorious health with plenty of energy and possess a keen mind?

Then take a quarter teaspoonful of Kruschen Salts in a glass of hot water every morning before breakfast!

Kruschen is a combination of the six vital salts which your nerves, glands and body organs ought daily to receive from food if they're to function correctly and which are impossible to obtain in these days of modern cooking.

Kruschen swiftly clears your blood of those harmful acids which cause your skin to erupt—you'll possess a skin like velvet, and a health perfection you didn't think possible.

## WORLD HAPPENINGS BRIEFLY TOLD

Sir James M. Barrie has been installed as chancellor of Edinburgh University, his alma mater, in succession to the late Lord Balfour.

Dr. Frank B. Jewett, president of the Bell Telephone Laboratories says plans are being made to lay telephone cable under the Atlantic from Newfoundland to Ireland.

The French Government has decided to erect a stone memorial to the victims of the British airship R-101 on the field where the dirigible met disaster.

Though lower in value, Canada's catch of sea fish and shell fish for the first nine months of this year was larger in volume than for the same period of 1929.

The Nobel prize in medicine for 1930 was awarded to Dr. Karl Landsteiner, of New York, connected with the Rockefeller Institute of Medical Research.

Death of William Kingsford-Smith, father of Charles Kingsford-Smith, conqueror of both the Pacific and Atlantic oceans, was announced Nov. 2, at Sydney, New South Wales.

Canada and Australia were declared to be the two countries in the British Empire showing the most notable advance in aviation by C. R. Fairley in his first lecture as President of the Royal Aeronautical Society.

Canada's seventh annual national flower show was held at Montreal recently. The exhibition was the largest of its kind ever held in Canada, with entries in the 125 sections all filled.

A new world record of 357 eggs in 365 days was made by white leghorn pullet number five in the test at Agassiz, B.C., under trapping net pens. The eggs averaged more than 26 ounces to the dozen.

A consignment of 1,650 tons of flour from Port Arthur direct to Aberdeen, Scotland, said to be the first shipment of this kind, has been sent to millers in Scotland and England.

## Correspondence Course

### Saskatchewan Plan Wins Enthusiastic Approval In Rural Sections

The correspondence course by which the Saskatchewan Department of Education has made high school instruction available to all students in the province unable to take advantage of ordinary high school facilities, has apparently won the enthusiastic approval of parents, students and teachers in rural parts of the province. Already a total of 451 pupils have been enrolled, while 1,200 application forms have been sent out in response to requests.

### Paper Plant Keeps Busy

The Westminster Paper Company at New Westminster is operating its plant 24 hours a day with a staff of 100 men in order to keep up with its orders. The plant, in addition to a large domestic trade, is producing paper products for Australia, New Zealand, China, Japan, West Indies, South America and South Africa.

When the world laughs at you just laugh back. It's just as funny as you are.

## Parallel Drawn In Two Tragic Deaths

### Thomson Perished With R-101, Huskisson Killed By First Train

A curious parallel is being spoken of in London between the death of Lord Thomson, Air Minister, who perished in the R-101 disaster, and that of the last Cabinet minister to be killed in an accident, William Huskisson, who met death almost exactly 100 years ago.

Huskisson who was president of the Board of Trade, was knocked over by a train when he was attending in his official capacity the opening of the first British railroad, the Manchester and Liverpool line.

His death caused a great outcry at the time against the new means of transportation.

The moral does not need to be pointed out, British observers say.

(By Annette)

## THE BOLEERO FROCK HAS FOUND IMPORTANT PLACE IN SMART WOMAN'S WARDROBE

A youthful bolero frock full of charm and modishness. It is easily fashioned! Easy to wear! And it will meet all-day occasions smartly.

The front of the bolero falls softly back in jabot effect at the neck and the lower part detracting from breadth.

It is very slender through the hips. The lower skirt has inset plaits that give the appearance of box-plaits that sway so prettily in motion, otherwise hang sleekly straight.

This stunning trend printed silk crepe frock is particularly nice for Autumn for street.

Style No. 918 is designed in sizes 14, 16, 18, 20 years, 36, 38 and 40 inches bust.

Black canton crepe is very effective and wearable.

Featherweight tweed in dark green colouring is jaunty, and so appropriate for spectator sports.

Size 16 requires 4 1/2 yards 39-inch with 1/2 yard 39-inch contrasting. Send 25 cents (in stamps or coin) to Fashion Bureau. Write carefully and plainly your full name and address, the number of the pattern and the size you want.

## Offer \$500 For a Slogan

### Competition To Be Held In Connection With World's Grain Show At Regina

Official notification has been received from the Italian Government by the management of the World's Grain Exhibition and Conference to be held at Regina, July 25 to August 6, 1932, that Italy will be represented at the event. The acceptance of Italy makes the ninth country to accept the invitation to be represented at the World's Grain Exhibition and Conference. The other eight countries are: — New Zealand, Belgium, Netherlands, Czechoslovakia, Peru, Yugoslavia, Poland and Guatemala.

Preparations for the Exhibition and Conference at which over \$300,000 will be awarded in cash prizes are proceeding apace. The management is offering a prize of \$500 for the best slogan, the conditions governing the award of this prize being outlined as follows:

The slogan submitted shall not be more than ten words in length. There is no entry fee and the contest is open to the world. Not more than three suggestions are to be submitted by any one person. These must be written or typed plainly on one side of the paper, containing the contestant's name and address and must reach the office on or before January 31, 1931. Address Slogan Contest, World's Grain Exhibition and Conference, Imperial Bank Chambers, Regina, Canada.

## First Metal Base Highway

### Has Just Been Completed For Test In Springfield, Illinois

Just about a year ago a prediction made at the meeting of the International Acetylene Association that iron would become the base of highways was soundly ridiculed, but the world's first metal base highway has just been completed in Springfield, Ill., as a test for wear and influence on the construction of highways in the future.

Iron plates were used on the rolled and levelled sub surface and then the section was covered with a mastic sand cushion and the brick wearing surface. The road just completed is the first test of three designs with which experiments will be made. The iron and steel industry is watching the matter with great interest because of the possible outlet for additional iron in the coming years.

Persian Balm. Cool and refreshing. Soothing and protective. The perfect aid to beauty. Unrivalled in its softening and beautifying effect on the skin. Imparts a fresh and fragrant charm to the loveliest complexion. Banishes roughness caused by weather conditions. Safeguards the skin and keeps it smooth, soft and flawless. Use it for the hands and face. Always results in the highest expression of beauty.

## Adds Thrill To Sport

### Ski Runner Can Fly With New German Invention

Some of the thrills of flying are added to the winter sport of skiing with a pair of wings worn by the ski runner. The wings made of aluminum by a German inventor, are nineteen feet from tip to tip and enable the wearer to take short flights in the air after gaining sufficient momentum on skis. They are constructed that the ski rider is virtually seated in the centre of them when he leaves the ground. They are movable from a horizontal position and easily controlled, enabling the rider to change direction of flight.

## Telephone Link With Australia

### Regular Commercial Telephone Service Is Inaugurated

The American Telephone and Telegraph Company has announced it will inaugurate regular commercial telephone service between North America and Australia at once.

The new circuit, the longest ever established for regular commercial telephony, consists principally of two radio links, one across the Atlantic and the other between England and Australia. With the wire lines involved, the circuit between New York and Sydney is more than 14,000 miles long.

Ten persons were killed every day on French roads last year.

Banish pain with Minard's Liniment.

## Canada Has Valuable Fur Farming Industry

### Over Sixteen Million Dollars Invested In Fur Bearing Animals

Fur farming in Canada is now established as a leading industry. The latest available figures show that the industry today represents a capital value of \$22,850,617, of which \$16,401,453 is invested in fur-bearing animals.

Ten years ago the total value of fur-bearing animals on fur farms in Canada was placed at \$4,728,105. The industry today represents a capital investment of practically four times as much as in 1920. The silver fox heads the investment list with a capital investment of \$14,922,378—an increase of \$10,400,000 over 1920. The next from the standpoint of investment value is the muskrat, which now represents an investment of about \$600,000. With a capital investment of \$328,928 the mink comes next. This is an increase of 50 per cent. over the preceding year and of \$324,153 over 1920. The other, coyote, silver blue fox and beaver are other newcomers to the fur industry.

## Recipes For This Week

(By Betty Barclay)

### COFFEE FRUIT CAKE

- 1/2 cup shortening.
  - 1 cup light brown sugar.
  - 2 eggs.
  - 1/2 cup coffee.
  - 1/2 cup milk.
  - 1/2 cups flour.
  - 2 teaspoons baking powder.
  - 1/2 pound raisins.
  - 1/2 pound citron.
  - 1/2 pound figs cut in strips.
- Cream shortening, add sugar, egg yolks, coffee and milk. Sift together flour and baking powder and add slowly. Add fruit, which has been slightly floured, and fold in beaten whites of eggs. Bake in greased loaf pan from one hour to one hour and a quarter.

### PINEAPPLE MEAT LOAF

- Mix thoroughly 1/2 lb. chopped pork, 1/2 lb. chopped beef, 1 cup drained crushed canned pineapple, 2 cups rolled cracker crumbs. Break in 1 egg. Work in 3 teaspoons salt and 1/2 teaspoon pepper. Pack into a bread pan and bake 45 minutes in a moderate oven (400 degrees Fahrenheit). Serve hot or cold.

Douglas' Egyptian Liniment should be in every household. Stops itching, stings, chafes, cuts, burns, and prevents blood poisoning. Keeps away inflammation and proudest flesh.

## An Author's Opinion

### Hugh Walpole Chooses Six Books Worth Being Called Literature

Hugh Walpole the novelist, said in a speech at King's College, London, England, that there were only six books in the world worth being called literature. He listed them as follows: "War and Peace," by Tolstoy; "The Illiad," Homer; the first volume of "Keats' Poetry"; "Arabia Deserta," Doughty; "Canterbury Tales," Chaucer.

"As widely divergent as can be," was Mr. Walpole's comment on his selection.

## Weak After Operation

"I was very weak after an operation. My nerves were so bad I would sit down and cry and my husband would not go out and leave me alone. Now my nerves are much better, thanks to a booklet that was left under the door. Lydia E. Pinkham's Vegetable Compound surely put me on my feet. I have taken eight bottles. My friends tell me I look fine. My sister has taken this medicine too."—Mrs. Annie Walton, 67 Stanley St., Kingston, Ontario.

Lydia E. Pinkham's Vegetable Compound

W. N. U. 1863

## ACID CONDITION

the common cause of pain and discomfort after eating --

GET RID of your dread of pain after eating. Eat without fear of "indigestion," sour stomach, disagreeable gas or headaches.

When your food ferments, "disagrees," lies like a lump in your stomach, it's a sign of too much acid. You need not resort to crude methods—take instead an anti-acid that will correct the condition. Phillips' Milk of Magnesia.

A spoonful of this pleasant-tasting, soothing fluid neutralizes many times its volume of acid. It restores the proper alkaline balance to an acid-soaked stomach and bowels—assists these organs to function as they should.

Phillips' Milk of Magnesia is what you need when a bad breath, coated tongue, heartburn, nausea or biliousness indicates an overacid condition. Take a spoonful today and for several days and see how it sweetens the system. You won't be nearly so liable to colds or sickness. All drug stores—in 50c bottles.

Genuine Milk of Magnesia is always a liquid—never a lumpy mass. Look for the name Phillips' on wrapper and bottle.

## PHILLIPS' MILK OF MAGNESIA

## Aid For the Needy

### Concerted Action To Be Taken In Saskatchewan To Relieve Distress

"Concerted action will be taken by the Provincial Government, the Saskatchewan Red Cross, the Saskatchewan Wheat Pool and the United Farmers of Canada, Saskatchewan section, to help relieve distress existing in the province due to present financial depression." Mrs. Pearl Johnston, president of the women's section of the U.F.C. and convenor of the organization's relief committee, stated at Saskatoon. The government has given a grant of approximately \$10,000 to the Red Cross Society, which will be expended in the purchase of clothing from wholesale houses for children of school age in dried-out portions of the province, and will endeavor to get the railways to reduce rates on fuel and vegetables shipped in to relieve distressed areas, she said, "while the Wheat Pool and the United Farmers will collect used clothing from their memberships and distribute throughout the province. This work would be carried out from two relief depots, one in Regina and one in Saskatoon. The Wheat Pool relief committee, consisting of A. J. Moffatt, A. F. Sproule and H. Marsh, would circulate all of its local committees and the U.F.C. would follow a similar procedure with all of their local lodges.

The Wheat Pool has offered to pay freight on all parcels of second-hand clothing sent in for distribution and also on all outgoing parcels shipped to needy families.

## Gold Production Increasing

### Canada Will Likely Take Second Place This Year

The prospects are that Canada will this year advance into second place among the gold producing countries of the world. South Africa holds first place and the United States second. Last year the value of gold produced in Canada was approximately \$40,000,000. This year it is expected the value will be about \$60,000,000. Almost without exception the larger mines in Northern Ontario, the principal source of gold production in the Dominion, are expanding their output. Besides the straight gold producers there are several copper mines that add an important quota of gold as a by-product. Within the next year it is likely that Manitoba will play an important role in gold production.

## Speeds Development Of Plants

To shelter them from chill and speed their development every plant on some English truck farms is being provided with a hot-house of its own. The hot-houses take the form either of forcing jars of solid glass or pyramid-shaped metal frames into which panes of glass are set. The latter type is the most popular because the panes can be replaced if shattered. Each type provides the necessary ventilation through a hole at the top.

## Closed Game Preserve

The Thelon game sanctuary east of the Great Slave Lake, which confines the last known herds of musk-oxen on the Canadian mainland, is closed to all hunters, both natives and white men.

Blood in the average human body travels five times the nautical distance between New York and Manila in one year.

For Dry Skin—Minard's Liniment.

## Trouble For Labor Party

### See Clouds On The Political Horizon In Great Britain

The British parliamentary barometer is set at "storms ahead." Those who have studied the age-old history and have followed the recent course of the parliament at Westminster declare there have seldom been more clouds on the political horizon.

The Labor government will face a strong criticism from both Liberal and Conservative wings of its opposition on the score of its stated Palestine policy—a policy which Rt. Hon. David Lloyd George, the Liberal leader, has stigmatized as going for towards nullifying the Balfour declaration of the hard-pressed war-time days.

The tariff controversy is the most uncertain element in present day politics and it threatens, as much danger to the Conservatives as to the government. The Imperial Conference, by the very fact of its meeting and discussions, will probably force the issue in the British parliament.

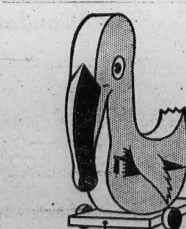

Then the government is determined to repeal the Trades Disputes Act—a piece of legislation which practically all labor sections have united in declaring "iniquitous." The press as a whole and labor speakers in particular have foreseen strong opposition from the House of Lords to the repeal of this act.

## An Oil That Is Prized Everywhere

—Dr. Thomas' Electric Oil was put upon the market without any flourish over fifty years ago. It was put up to meet the wants of a small section, but as soon as its merits became known it had a whole continent for a field, and it is now known and prized throughout this continent. There is nothing equal to it.

Irate Parent: Can't you think of anything but dancing? Aren't you ambitious? Don't you want to leave footprints on the sands of time?

Son: Frankly, Sir, I'd rather leave Roll-Royce ruts!

## for ANY CHILD

WE can never be sure just what makes a child restless, but the remedy can always be the same. Good old Castoria! There's comfort in every drop of this pure vegetable preparation, and not the slightest harm in its frequent use. As often as your child has a fretful spell, is feverish, or cries and can't sleep, let Castoria soothe and quiet him. Sometimes it's a touch of colic. Sometimes constipation. Or diarrhea—a condition that should always be checked without delay. Just keep Castoria handy and give it promptly. Relief will follow very promptly; if it doesn't, you should call a physician.

### CHAPTER IV.—Continued.

"I believe," he said, turning with mock severity to Gay, "that you've been telling on me!"

Simoon Bartlett chuckled as he replied: "She ain't told nothin' I didn't know beforehand, boy. You've got a sort of 'conquerin' way about you. If you hadn't, do you believe this little gal would have picked up her duds and started off at a minute's notice?"

"It was thirty minutes," Nick corrected, "and she didn't keep me waiting either! Well, we must be off. A thousand thanks, Mr. Bartlett, for this happy week."

"Good luck!" called Simoon Bartlett as they sped away.

And good luck had followed them. Through the whole summer, rain came during the night. With few exceptions their days were bright and sparkling. They struck off through picturesque New Hampshire, sleeping at farms where the chance came of sending their nights beneath the stars; and once accepting the hospitality of a Gypsy camp.

September found them in Maine, reveling in those first beautiful days that only at night give a hint of the colder days to come. They had climbed what their hostess of the night before had called "a mountain," which, though hardly deserving the name, showed them a wonderful, wide stretch of creaming waves.

"I'd almost forgotten that I loved the sea," said Nick. "Gay! let's set sail for a warmer clime! There's money enough yet to take us South—or shall it be the big southwest we've dreamed about: Colorado, Arizona, New Mexico—deserts and canyons—and waterfalls—California and the Pacific! Oh, my dear! Isn't it glorious to be free?"

Free? It was then that fear clutched at the girl's heart. She was seated upon the ground, but Nick stood, his back to the wide expanse of blue, his hair blown away from his forehead, an open shirt revealing his strong young throat. As she looked up at him Gay thought that Simoon Bartlett had been right—Nick had a conquering air about him. To think of shutting him up in that stuffy corner of the bank again seemed as cruel as clipping the wings of an eagle. Yet, she thought, with a quickening of her heart, even an eagle has its nest.

"Nick," she said, as he dropped beside her, "do—do you ever have the least, tiny desire to settle down?"

He smiled, and quoted:

"Who has not felt how sadly sweet  
The dream of home, the dream of home."

"My dear girl, of course I think of settling down, as you possibly do; but not yet. We set out for the ends of the earth, if I remember rightly, and we've reached only the edge of the Atlantic! Settle down! Gay, are you crazy, or—Why, what's the matter?"

She looked up, bravely fighting back the tears, and said: "Nothing."

W. N. U. 1863

Two days later, an amazed and beaming Simoon Bartlett, arose from a big rocker on his front porch, and greeted them with all the cordiality of a long-lost uncle.

"Jiminy Crickets! I was just wonderin' about you. Ain't had a card since you left Portland. Thought maybe you'd took the train for some fur-off port, or set sail for the Fiji Islands. And here you be, turnin' in my own front gate! Set down, ma'am. You're a sight for sore eyes, both of you; but what in thunderdation brings you back ahead o' time?"

Gay flushed, but Nick answered readily: "Only the time-worn and unquenchable desire for 'Home Sweet Home.' In other words, we want to hire your camp, and when cold weather drives us out we'll go back to Bakersville, and the stately portals of the First National Bank. May we have the cabin, Mr. Bartlett, please?"

"It ain't for rent—not at no price whatever; but you're welcome to use it long as you see fit. But first you got to visit with me a spell, and tell me all about your travels. I ain't had a thing interestin' happen since you left. Many's the evenin', ma'am, that I've sat here thinkin' o' that chowder, and the good time you give me, to say nothin' of all them post-cards you sent back, an' letters, too. I saved 'em all. They're in the lacquer box my great-uncle Ebenezer Bartlett brought from Japan. Don't hardly see how you got a chance to write 'em, ma'am."

"We usually manage to do the things we want to do," Gay answered. "And I wanted you to know what a wonderful time we were having."

"Don't regret your hasty bargain then," chuckled the old man. "Not yet," said Gay, with a sweet upward glance at Nick that was not lost upon their host.

"And Nick?" queried Simoon, his eyes twinkling. "Sorry you ain't wadin' in the Pacific, boy—or be you comin' to come back to old New England?"

"I've never set foot out of New England yet," laughed Nick. "and some day I shall wade in the Pacific. As for being satisfied—you ask Gay if she's heard any complaints on my part."

(To Be Continued.)

## Guard the Children From Autumn Colds

The Fall is the most severe season of colds—one day is warm, the next cold and wet, and unless the mother is on her guard the little ones are seized with colds that may hang on all winter. Baby's Own Tablets are mothers' best friend in preventing or banishing colds. They act as a gentle laxative, keeping the bowels and stomach free and sweet. An occasional dose of the Tablets will prevent colds, or if it does come on suddenly their prompt use will relieve the baby. The Tablets are sold by leading dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

## Gulf Stream Steadily Shifting Westward

Famous Navigator Says It Is Approaching the United States

A famous navigator according to Joseph Elgie, English magazine writer, has found that the Gulf Stream is steadily shifting westward, leaving England and approaching the United States.

If the hypothesis New York is destined to have a climate almost semi-tropical, according to the navigator.

It has been said that this warm stream of water, running through the Atlantic from the Gulf of Mexico, gives England a much warmer climate than it would have without its influence. It is feared if the stream continues to shift England's winters will be much more severe and its summers much colder.

## Use Minard's Lintment for Toothache.

Canadians Greatest Radio Users

According to the president of the Radio Manufacturers' Association of Canada the per capita expenditure in the Dominion on radio sets is the highest in the world. In 1928 Canadians spent over \$50,000,000 on radios and equipment.

## DON'T SUFFER WITH DANGEROUS INDIGESTION

Do you suffer after meals with a belching, from sour and acid stomach? Many believe they have heart trouble and tremble with fear, expecting any minute to drop dead. This condition can be prevented, likewise relieved. Take Carter's Little Liver Pills after meals and neutralize the acids. Sweeten the sour and acid stomach, relieve the gas and cure indigestion. The stomach, liver and bowels will be cleansed of poison, painful and dangerous indigestion disappears and the system enjoys a tonic effect. Don't delay. Ask your druggist for a 25c pkg. of Carter's Little Liver Pills.

### Substitute For Spectacles

Small Lenses Fitted Under Eyelids Adopted By London Opticians

The wearing of spectacles may be dispensed with as a result of a remarkable optical device which is now being adopted for the correction of certain forms of defective vision.

The method of treatment, states the London Sunday Express, consists of fitting under the eyelids minutely thin lenses, similar in shape to the shell type of artificial eyes.

"The wearer can remove or replace the lens before a mirror in a second or so."

The new system is rapidly gaining favor among eye-specialists. A noted oculist is playing nightly on the London stage with one eye fitted with one of the invisible substitutes for glasses.

The device is said to be particularly valuable to motorists and sport devotees, because it permits of a range of accurate vision at all angles, while the efficacy of spectacles is limited to a direct view.

"These new lenses mark a great advance in optical technique," said a Harley Street eye-specialist. "The International Congress of Ophthalmology has investigated and approved the claims made for the discovery."

"The use of these invisible substitutes for spectacles is already much more common than the public suspect. I have worn one for six months. I read now in every night and reinvest it in the morning."

"These lenses will certainly mean a great diminution in the number of people doomed to wear spectacles; but I should not go so far as to say that they will mean the complete elimination of spectacles from the stock-in-trade of the oculist."

### Free Freight Policy

Westerners Can Ship Breeding Stock Free Of Freight Charges Under Certain Conditions

Major the Honorable Robert Weir, Federal Minister of Agriculture, has announced a new free freight policy whereby holders suitable for breeding stock bought by bona fide farmers and cattlemen at stock yards west of Fort William will be returned to the buyer's farm or ranch freight free. Application should be made to the nearest stockyard for the benefits of the policy. The concession extends to carloads of not less than twenty head to be used for breeding purposes only, to be, so far as possible, of the same type and breed and to be not more than twenty-four months old. Free freight is obtained on the certificate of the authorized stockyards representative of the Dominion Live Stock Branch at point of purchase. It entitles the shipper to have his car of breeding stock billed to his home station free of freight charges. The railway company assumes 25 per cent of the freight and the Dominion Live Stock Branch the balance.

### Manitoba Public Works

The proposed Manitoba public works mentioned in the agreement between the Government of the province and of the Dominion, and which are to be got under way as soon as possible, have been unofficially estimated by engineers as involving a sum of \$3,000,000.

Worms feed upon the vitality of children and enfeeble their lives. A simple and effective remedy is Mother Graves' Worm Extirminator.

### Increase Elevator Capacity

The Alberta Wheat Pool has increased its storage capacity at the Pacific coast by a million bushels through the leasing of the terminal elevator at Victoria owned by the Panama Pacific Grain Co., Ltd. The Alberta Pool now has on the Pacific coast storage capacity for over 9,000,000 bushels of grain.

### Montreal Largest Inland Port

It is expected that the improved ship channel in the River St. Lawrence as far as Montreal, giving a 35-foot depth for ocean liners, will be completed by 1934. This will enable liners of 20,000 tons gross to sail to Montreal, 1,000 miles from the Atlantic, the largest inland port in the world.

Minard's Lintment refreshes the scalp.

### March Of Science

Suggestion Is Made That There Are Feats Too Formidable For Best Brains To Fashion

Will the wonders of science never cease? The question was asked a long time ago, but it still leaps to the mind and even to the lips. When one reads of motion pictures of the circulation of the blood, of destruction of red-blood cells by sleeping sickness germs, of the breaking of plants and of injections of measured amounts of fluid into cells so small that a pin point could destroy many of them at a thrust, one can only blink and wait for still more astonishing announcements. The greatest surprise which science could possibly spring would be the confession that it had no more surprises. And yet there remain feats too formidable even for science. It may show a motion picture of bacteria in the blood, but it would be stumped by the problem of showing poetry in a good deal of current verse, no matter how powerful its microscope. It may show an amoeba dividing itself in two without any apparent harm, but it can't show the rule of reason governing along tickler tape. It may show the movements of protoplasm through plant cells, but it doesn't so much as attempt to show the presence of logic in political speeches. And if it did show us these phenomena, we'd spoil the picture by suggesting that it wipe the dust off the microscope.—New York Evening Post.

### A Strange Contrast

Aviation Receiving Help But Railways In Former Years Were Hindered

The forecast which is being shown in the world of aviation contrasted strangely with the lack of vision which was shown when railways were at the same stage of development. The recent centenary celebrations of the opening of the first rail railway in the world—the Liverpool and Manchester—emphasized the progress which was made in those early days in spite of the bitter opposition.

Towns and cities joined in the general opposition. When the Great Western Railway was being built, the Bath authorities insisted that the line should run outside the city boundaries, with the result that the sharp curve there still checks all fast trains. A similar attitude was adopted by Bristol; hence the main station there, besides being on the outskirts, is so situated that improvements are difficult.

Asthma Victims. The man or woman subject to asthma is indeed a victim. What can be more terrifying than to suddenly be seized with paroxysms of choking which seem to fatally threaten the existence of life itself. From such a condition, Dr. J. D. Kellogg's Asthma Remedy has brought many to completely restored health and happiness. It is known and prized in every section of this broad land.

Low fares are causing many taxi drivers in Poland to quit business.

## Quality Merchandise

### Sylver Floss Yarn

A Silk and Wool Yarn particularly adapted to the making of Scarfs, Caps and Children's and Women's Sweaters. A nice range of shades and sold regularly at 35c a ball.

A BARBAIN at Per Ball ..... 27c

### Pyjama Cloth

A Pyjama Cloth that you will be glad to make up. A very heavy cloth and a full 37 inches wide. This number sold last year at 45c a yard. We have already this year sold one shipment of it. A new lot of patterns just in.

SPECIALLY PRICED at per Yard ..... 35c

### Children's Fleece Bloomers

Best grade of Heavy Fleece Bloomers for Girls. These garments come in good shades and are very warm for school children and for playing outdoors. All sizes 22 to 32.

TWO GARMENTS for ..... 85c

### Children's Wool Hose

A Fine Rib Worsted Number of All Wool Yarns A Neat Dressy Stocking in Fawn shades. All sizes 6 to 9. Regularly sold at 75c to \$1.00.

All One Price ..... 65c

### Women's Bloomers

A Warm Winter Bloomer that is not bulky nor cumbersome. Made in a fine rib of Combed Egyptian yarns. Cream shade. Full sizes and well tailored throughout.

All Sizes ..... 69c

### Men's Wool Shirts & Drawers

Men's Hewson made pure wool Shirts and Drawers. Made in a heavy elastic rib that is warm and durable. All sizes.

Per Garment ..... \$1.50

## Groceries

### Canned Peas

Size 4 Sieve Peas, Standard Size No. 2 Tins Big Food Value.

SPECIAL, 2 Tins for ..... 25c

### Canned Corn

Aylmer Brand Choice Quality Sweet Corn.

SPECIAL, 2 Tins for ..... 29c

### JAM

Best Quality absolutely Pure Jam 4 lb. Buckets in Red Plum and Greengage.

EACH ..... 50c

### Soda Biscuits

Wooden Boxes of \$1. Sodas. Fresh made.

2 BOXES for ..... 95c

### Crushed Pineapple

Standard size tins Crushed Pineapple for baking or the table.

A BARBAIN at ..... 25c

### Jelly Powder

Malkins Best Pure Jelly Powders. All flavors. SPECIAL 4 Packets for ..... 23c

### Special Label Tea

Try this Big Tea Value. Broken Pekoe in sealed 1 lb. Packets. PER LB. .... 45c

### Bakeasy Shortening

2 lb. Canisters of Bakeasy. SPECIAL ..... 44c

### Canned Salmon

New pack, Choice Quality Pink, in 1 lb. tins. SPECIAL, 2 Tins for ..... 25c

## Main Street

W. A. Gamble of the local bank spent the week end in the city.

Mrs. A. C. Carbol is visiting friends in Edmonton.

Mrs. McDowell spent the week end in the city.

Mr. Pearl Smart was in the City the first of the week.

Mr. Frank Elford spent the holiday in Irma visiting his brother Mr. E. L. Elford.

Mr. Jas. Craig, of Edmonton, has been at his farm north of Irma looking after his crop.

Mr. J. W. Grayden was here Monday looking after his farm south of Irma.

Miss O. Walker of Edmonton spent the holiday with her aunt Mrs. T. Shaw at Irma.

Mr. and Mrs. Tripp and Mr. and Mrs. Foxwell took in the chicken supper at Jarow last Friday night.

Miss B. V. Wilson of the local bank spent the holiday in the city with her parents.

Mr. R. D. Smallwood and Mr. M. Comley of Jarow, left Monday to attend the U. G. G. convention at Winnipeg.

Dr. Purvis of New Westminster, B. C. who is visiting his brother C. G. Purvis in Viking was a visitor in Irma Friday.

Eleanor and Dennis Barber returned from the City where they are attending normal, to spend the holiday with their parents.

Mr. O. Vingerud, who has been conducting a jeweler shop in Irma for the past year has decided to close up shop and return to his former home in North Dakota.

There will be a Whist Drive in the lodge hall Tuesday, November 25th under the auspices of the Rebekah Lodge. Everybody welcome. Admission 5c.

There will be a Whist Drive in the lodge hall on Tuesday, November 25 under the auspices of the Rebekah Lodge. Everybody welcome. Admission 5c.

Mrs. C. Hall of Seattle, Wash., (nee Julia Purvis) Dr. Stuart Purvis of New Westminster, B. C. and Mrs. C. G. Purvis were visitors in Irma last Friday, and accompanied by Mrs. Tripp drove to Wainwright and the Buffalo Park. Later with Mr. C. G. Purvis they took in the chicken dinner at Jarow.

Threshing has been progressing nicely the past week, a few of the outfits have finished but it will take most of next week to see all of the grain threshed. In some cases oats are being left to see if the price will advance as where the grade is low and tough the price offered by the elevators 1-2 cents will not pay the thresh bill which is usually 5c per bushel. Barley and rye are in the same class as oats, in most cases the threshing costs more than the grain is worth at the elevators.

### LARGEST TURKEY FARM IS WOMAN'S

Ardenode, Alta., Nov. 12th.—Nine years ago, Mrs. W. A. Freeman, of Ardenode, Alberta, a native of Wisconsin, U.S.A., won a pair of bronze turkeys in a raffle. She now has the largest turkey ranch in Canada and is the acknowledged queen of turkey raising in the Dominion. Her turkeys will return a revenue of \$10,000 this year.

The winning of the pair of turkeys in the raffle suggested to Mrs. Freeman the idea of raising turkeys as a side line.

This year she has raised 2,500 birds. Three hundred hens, all government inspected, have supplied the demand for eggs in 1930 and 45 of the most perfect hens have been selected for first class breeding stock. A revenue of \$2,000 has already been obtained this year from the sale of eggs and \$2,500 from the breeding stock. The receipts from the sale of table birds for Thanksgiving and Christmas are expected to bring this year's total up to \$10,000.

The Freeman farm on which the turkeys are raised has a creek running through it, which supplies a constant and plentiful supply of good water, an essential for successful turkey raising. The soil is sandy, which assures good drainage. Most of the chicks are hatched in incubators. After hatching the chicks are sheltered for about ten days in large coops and then allowed to roam. The main flock is kept on about 300 acres of land, fenced in. Scrupulous attention is paid to the cleanliness of the sheds, roosts, etc., which are sprayed with shingle oil from time to time to destroy fleas, lice, etc.

## Here and There

A new queen of the Pacific will pay homage August 24 to a former Empress of the seas when the Canadian Pacific liner Empress of Japan, new 26,000 ton flagship of the company's Pacific fleet, steams through the Narrows to receive Vancouver's vociferous applause. Just before reaching Brockton Point the new Empress, gay with flags and bunting, will dip her ensign to the dragon-carved figure-head which rests on its pedestal in Stanley Park overlooking the waters of Burrard Inlet. The figure-head is that of the old Empress of Japan, scrapped and sold in 1922 after 31 years of service between Canada and the Orient.

Impressively simple ceremonies were held at Fort William recently for the late P. E. Trautman, for the past 18 years Canadian Pacific Press representative in Western Canada. He was buried in the city where a large part of his career as a pioneer western newspaperman was passed as editor of the Port William Times-Journal. The cities of Port Arthur and Fort William were officially represented as was also the railway company while a large number of private citizens paid their last respects.

S.S. Princess Joan, new 5,000-ton steamer of the Canadian Pacific Railway's British Columbia coast, is floating hotel at Vancouver recently when 425 members of the Grand Masonic Lodge of British Columbia swarmed aboard for their 59th annual convention at Powell River.

The Algonquin Hotel at St. Andrews-by-the-Sea, has opened ahead of its usual time with three conventions booked prior to the official opening of the hotel. The Andrews season the last week in June.

Fifteen years ago the average hen in Canada laid 50 eggs annually, according to Professor E. A. Lloyd of British Columbia. This number has now grown to 70. From extra eggs alone Canada has produced an increased revenue of more than \$200,000,000.

Nearly one billion dollars was invested in central electric power stations in Canada at the end of 1928, or \$956,919,603 to be exact, according to an official report issued by the Canadian Government Bureau of Statistics. This is twice the amount of the investment in this industry in 1920 and over \$90,000,000 more than the total in 1927.

At the fourth World's Poultry Congress to be held at the Crystal Palace, London, July 22-30, Canada will have a total of 853 birds in competitive entries, also 453 exhibition birds and 244 production birds. Exhibits of ducks, geese, pigeons, and rabbits will also be there from the Dominion. Birds from the ranch of H.R.B. the Prince of Wales at Pekisko, near High River, Alta., will be among the many interesting exhibits.

The first four months of the current year saw 503 homesteads filed upon in western Canada than during the same period last year. The increase was furnished almost entirely by Alberta, though British Columbia showed a small gain.

Launched on June 11, at Clydebank by H. R. H. the Prince of Wales in the presence of a distinguished gathering of notables, S.S. Empress of Britain, ace of Canada's steamships, took the water and pictures of the function were flashed across the Atlantic and the speeches radioed and appeared in New York papers. Coupled with the Prince's speech were speeches by Lord Abernethy and E. W. Beatty, chairman and president of the Canadian Pacific Railway.

Canada's largest convention held in Canada's largest hotel came to a successful termination last week when the Ancient Arabic Order of the Nobles of the Mystic Shrine, coming from dozens of cities in Canada and the United States, who had invaded Toronto to the number of close on 100,000, left for their respective homes. The Royal York could not of course fully accommodate them and the Canadian Pacific Railway built "Pez City" of railway coaches for the purpose near the hotel.

Meat and dairy products are increasing in popularity on the daily menu of the people of Canada. The per capita consumption of meat is eight per cent. greater than in 1920 and the total quantity of meat consumed annually in the Dominion has increased 20 per cent. in the last 10 years.

Ontario tops the list of Canadian provinces with fatalities at level crossings during the past three years, according to Arthur Gaboury, secretary-general of the Province of Quebec Safety League. His figures show 71 deaths in 1928; 78 in 1929 and 16 to the end of May, 1930. These compare with 39, 7 and 7 for Quebec in the same periods. The greatly reduced numbers in the case of Quebec are attributable, says Mr. Gaboury, to the observance of the law in that province calling upon cars to stop when reaching a crossing, whether a train is in sight or not.

Bright Atlantic silver sea-run salmon are entering New Brunswick angling waters in greater numbers than ever this year, according to reports from wardens reaching the provincial department of Lands and Mines. On the Restigouche River catches of 28-lb. and 25-lb. salmon have been made.
